

Medicare Made Easier:

Your guide to clearer decisions and fewer surprises.

Medicare can feel like a whole new language — parts A, B, C, D, Advantage, Original. With your Cariloop benefit, a Coach makes it simple. They'll walk you through the options so you can make confident choices without the stress or the jargon.

Here are 4 key things to know (and how Cariloop can help):

1 You have options

Medicare isn't one-size-fits-all. Original Medicare and Medicare Advantage work differently and have different coverage rules and costs.

- ✓ Your Coach can explain the pros and cons of each plan and help you pick the option that fits your needs and budget.

2 The paperwork matters

Those Medicare Summary Notices (MSNs)? They're easy to ignore, but they show what Medicare paid and what you might owe out of pocket.

- ✓ Your Coach can help you make sense of your paperwork, catch billing errors, and navigate appeals if a claim is denied.

3 Coverage has gaps

Traditional Medicare doesn't include everything. Services like dental, vision, hearing aids, and long-term care are often excluded.

- ✓ Your Coach can help you understand where the gaps are, and make a plan with supplemental coverage options.

4 Timing is everything

There are specific windows for enrolling or making changes. Miss them, and you could face penalties or gaps in coverage.

- ✓ Your Coach will help you stay on top of deadlines and guide you, whether it's your first enrollment or time to reassess.
